FYTOSAN – cosmetics, pharmaceuticals and food.

Settled in the middle of the French Drôme department since its creation in 1989, the FYTOSAN company is a recognized expert for vegetal extraction from the organic field.

Its geographical position enables it to take a fully advantage of a traditional growing region for aromatic and medicinal plants. And the company is far from any source of pollution.

Manufacturer of a large range of cosmetic, pharmaceutical and food ingredients, FYTOSAN shares, through its clients and partners, the values that the respect of the human and of the environment are. Moreover, FYTOSAN incorporates the most demanding standards of quality and as doing so, contributes to the fame of its products.
